Charlie Kelley

Ann Arbor, MI | (269) 579-2102 | chkelley86@gmail.com

Summary

I have 12 years of experience of working in cross-functional teams to provide business value through user-centered design. From IBM to HubSpot, I have designed and delivered the first AI products at two organizations to help users understand and act on complex data. I am an excited learner and passionate teammate.

Skills

AI + human-in-the-loop design | Data visualization + analytics design | Product roadmaps + strategy | Design systems + platforms

Experience

Product Designer and Senior Product Designer I | HubSpot | Cambridge, MA
October 2021 - October 2026

- Help HubSpot users understand their data and make better business decisions by leading design efforts for business intelligence library used by almost all HubSpot customers.
- Launched AI integration to analyze reports and provide natural language analysis of reports activated by 185k users that increased average monthly usage by 25% after activation.
- Redesigned Report Viewer component that saw a CSAT score increase of 2.85 standard deviations compared to the previous year.
- Added options such as forecasts, anomaly detection and trend lines that have been adopted by more than 100k users and improves 2 week retention by 30%.
- Currently leads design for Lead Scoring app where I have been able to reduce the friction to starting a score leading to 17% more scores being created that have been already been started, 25k scores created in total from 30k users.

UX Designer and Design Lead | IBM | Ann Arbor, MI
February 2017 - October 2021

- Simplify complex decisions for healthcare professionals by aligning design, research and business strategy for portfolio of analytical products.
- Identified AI solutions to user problems using design thinking workshops that led to designing three new prototypes with one in production.
- Redesigned IBM Watson Health product platform improving visual appearance, user experience and future scalability leading to a current NPS score of 70 and SUPRQ score in the 91st percentile when tested.
- Designed Distributed Reporting, an application that automatically sends monthly reports to recipients that was previously done manually.
- Refreshed data visualization style guide and worked with analytics team to implement in 32 dashboards.
- Created and facilitated data visualization design thinking workshop that informed user journeys and product visual design.

UX Content Strategist | University of Michigan | Ann Arbor, MI
July 2014 - February 2017

- Made information easy for users to find on 30+ website designs and redesigns by modeling content into usable and repeatable models.
- Used analytics, user testing and tree testing to create wireframes and information architecture schemas.
- Designed and implemented survey of our clients, finding themes in for targeted marketing messaging.

Marketing & Public Relations Associate | Habitat for Humanity of Huron Valley | Ann Arbor, MI
September 2013 - January 2014

- Managing integrated communication strategy for organization including media relations, social media, content creation and bought advertising
- Coordinated Holiday Appeal, creating video and mail campaign resulting in reaching 100% of $125,000 fundraising goal

Communications and Research Fellow | Center for Community Progress | Flint, MI
September 2011 - September 2013

- Developing and executing marketing and outreach strategies for two national conferences – bringing in more than 1,400 participants and $200,000 in corporate sponsorships
- Writing newsletter articles, press releases, developing presentations, blog coordination as well as creating other original long form copy for website

Program Associate | Community Economic Development Association of Michigan | Lansing, MI
September 2010 - September 2011

- Organized community development corporations to collectively advocate for public policy regarding transportation, affordable housing and microenterprise
- Recruited new members – participation for my program increased 162% over 12 months
